

Support: 🔁 Review [DE] | 🔁 Review [EN]

Remnant with I/O shield, 2x SATA cable, driver CD, manual. 2 years warranty.

The D410PT as well as the D510MO offer passive cooling and hide on the one hand a -single Core Atom processor (D410) and on the other hand a Dual Core Atom processor (D510 – also used in numerous new netbooks) of the newest generation.

In the area of power consumption (~30 watts) the new mainboards range within the low, classic Intel Atom level. The major advantage of the new mainboard ist he possibility to utilize the 24 pin ATX jack, which makes the use of an additional P4 connector unnecessary.

As with the other mainboard generations, Intel again, focuses on the extension possibilities. Therefore, both mainboards offer a willingly utilized PCI slot, and the D510MO additionally offers a Mini PCIexpress socket and a LPT extension slot. With these possibilities up their sleeve, with minimum effort they offer variable fields of application.

Note : This mainboard does not fit into Voom-2, because of the big heatsink.
